

» **BIG BLOCK CHEVY**

Throttle Position Sensor

Adjustable Fuel Pressure Regulator

Adjustable Fuel Pressure Regulator

Billet Air Horns with Integral Screens

Fuel Injectors

Four 58mm Cast Aluminum Throttle Bodies

Billet Machined One Piece Fuel Rail with AN Fittings

Cast Aluminum Manifold

Billet Capstan Linkage Kit (actual kit appearance may vary)

There has been no Weber style, eight stack manifold available for the Big Block Chevrolet for many years. A few old units have surfaced but they require extensive re-work to accommodate fuel injection. BORLA® brings you a brand new BBC design specifically for our 58mm throttles. Tucked underneath our stunning one-piece billet fuel rail, which feeds both banks, is an adjustable fuel pressure regulator and a BORLA® billet linkage assembly. The valley plate casting incorporates a vacuum accumulator that accepts signals from each throttle bore and provides a connection for the MAP sensor. A dash -6 fitting suitable for a brake booster is also provided.

MODEL DESCRIPTION	PART #
V8 Kit, Chevy Big Block, 35mm Air Horn	200094

AVAILABLE OPTIONS FOR THIS KIT — DETAILS ON RIGHT ▶

OPTION	PART #	OPTION	PART #
