

»FORD 351 W
CROSS-RAM

BORLA® Induction presents a real cross-ram manifold for the Ford 351 Windsor small block engines fitted with 8 long runners for stump-pulling torque. Our valley plate incorporates a vacuum accumulator and its extended port wall construction enables machining for several different port configurations from OEM to 225's. Boasting looks to die for and ground-shaking power, our Ford Cross-Ram kit was voted one of SEMA's Best New Products for 2009.

MODEL DESCRIPTION	PART #

»KIT OPTIONS for 351 Windsor Cross-Ram

The options shown below are available for the Throttle Body Kit featured on previous page. Call 1-877-GO BORLA for more details, or visit www.borlainduction.com. **IMAGES SHOWN ARE REPRESENTATIVE AND MAY NOT MATCH KIT ON PREVIOUS PAGE.**

Idle Air Control

Provides the extra air needed to meet the demands power steering & air conditioning put on your engine. Also increases cold start RPM.

High-Pressure Fuel Pump

The choice of BORLA® engineers, Bosch premium competition-grade pumps meet the fuel delivery needs of high-performance racing engines. Fittings Kit also available.

Powder-Coated Finish

Available for throttle bodies, the manifold, or both. Provides striking contrast that shows off the sophisticated components of your BORLA® Induction Throttle Body Kit.

Polished Finish

Enhance your engine bay even more with mirror-polished induction jewelry. Available for air horns, throttle bodies and the manifold. Creates a truly custom look.

FAST ECU Kit

Featuring the latest in flash microprocessor technology for faster processing speeds. Engine-specific wiring harnesses simplify installations!
