

The options shown below are available for the Throttle Body Kit featured on previous page. Call 1-877-GO BORLA for more details, or visit [www.borlainduction.com](http://www.borlainduction.com). **IMAGES SHOWN ARE REPRESENTATIVE AND MAY NOT MATCH KIT ON PREVIOUS PAGE.**

Designed by BORLA engineers to provide stunning good looks along with a low profile, these throttles are the answer to a kit car builders' prayer, especially where under hood space is at a premium. From our no-compromise billet machined velocity stacks through eight 55mm CNC machined throttles, to manifolds flow-matched to the inlet port, BORLA brings you a semi crossram which will enhance any engine bay.

**MODEL DESCRIPTION**

**PART #**

V8 Kit Ford Coyote 5.0 Semi Crossram  
Throttles With 35mm Tall Air Horns

200125

**AVAILABLE OPTIONS FOR THIS KIT — DETAILS ON RIGHT ▶**

OPTION	PART #	OPTION	PART #
High Pressure Fuel Pump Fuel Pump Fitting Kit	206259 203057	Powder Coating of Throttle Bodies Powder Coating of Manifold	206298 206299
ECU Kit w/sensors & wiring harness	On request	Polishing of Air Horns Polishing of Throttle Bodies Polishing of Manifold	206303 206300 206301
Idle Air Control	205038		

**Fuel Injectors**

Race-proven fuel injectors give you complete control over placement, flow rates & much more.

**High-Pressure Fuel Pump**

The choice of BORLA® engineers, Bosch premium competition-grade pumps meet the fuel delivery needs of high-performance racing engines. Fittings Kit also available.

**Powder-Coated Finish**

Available for throttle bodies, the manifold, or both. Provides striking contrast that shows off the sophisticated components of your BORLA® Induction Throttle Body Kit.

**Polished Finish**

Enhance your engine bay even more with mirror-polished induction jewelry. Available for air horns, throttle bodies and the manifold. Creates a truly custom look.

**FAST ECU Kit**

Featuring the latest in flash microprocessor technology for faster processing speeds. Engine-specific wiring harnesses simplify installations!

**Idle Air Control**

Provides the extra air needed to meet the demands power steering & air conditioning put on your engine. Also increases cold start RPM.
